CENTENNIAL GETS ON WAY MERRILY TODAY

Opening Ceremony, With Address by Judge Will M. Sparks and Music by High School Girls Glee Club Held

Wedding Set for Wednesday at 3 p. m. Will be Held Because Couple Has Been Secured

QUEEN RACE BECOMES WARM

First Free Attractions are Given Today—Arlington Band Will be Rest of Week

The Rush county Centennial, Home Coming and Fall Festival got under way today and will be in full swing through the week, the closing feature of which will be the awarding of more than a thousand dollars of merchandise, given by Rushville merchants, at the platform at the corner of Second and Main streets.

Chief interest centered this afternoon on the baby carriage and doll cab parade scheduled to take place at three o'clock. The committee was a bit dubious several days ago about the prospects of a turnout, but the parade proved to be all that was expected of it—and then some. Many beautifully decorated baby and doll cabs, headed by the Ziedman and Pollie band, passed by in review for the consideration of the judges.

The weather man could not have been more considerate than he was today, and everyone hoped that he would feel as kindly towards Rush county's celebration the remainder of the week as he has today. After a start yesterday that looked decidedly discouraging, the week promises to be exceptionally good. The weather indications for tomorrow are fair and warmer.

As their part of the opening ceremony, the court house bell and the church bells were the only things that ran true to form. They helped out with the noise-making at 10:30 o'clock, but the manager of the Innis-Pearce furniture factory called the committee shortly before time for the opening and said that it required so much steam to blow the whistle that the factory would have to be shut down, and that, therefore, their factory whistle would not blow. The result was that none of the factory whistles helped out.

A. L. Gary, member of the program committee, presided at the ceremony that started the Centennial on its way. A girl's glee club from the high school sang three songs, two of them about Indiana, and Judge Will M. Sparks delivered a short address.

Tomorrow's program will consist of a band concert in the morning, music by a children's chorus of 270 voices at 2:45 p. m., a public wedding at 3 p. m., free attractions at 4:30 and 8 p. m. and a band concert at night.

The Arlington band has been engaged to play tomorrow, Thursday and Friday, so that there will be two bands to furnish music all the rest of the week. The children's chorus tomorrow afternoon promises to be an unusual attraction. The chorus has been trained for the appearance by Charles Ernest Parke, supervisor of music in the public schools. The children will sing a medley of national airs that will be especially appropriate to the occasion.

School children have a part in every day's program. On Thursday several numbers will be sung on the main platform at 11:30 a. m. by a chorus from Washington school. On Friday morning at 10:30 a

chorus from the Catholic school will give a program.

Interest is increasing every hour in the Centennial Queen contest continues. At the twelve o'clock count today Miss Dorothy Mulno was again in the lead with 8896 votes, after having been forced out of the lead at the 9 o'clock count last night by Miss Leah Oneal, who had only 7818 at noon today. The race seems to lie between them, unless two or three of the next highest contestants suddenly bring in a large number of votes which have been held back.

The vote on the ten highest contestants at 12 o'clock today will be found on page 4. A mistake was made yesterday in stating all but the ten highest contestants would be dropped from the race. Instead, it should have been that only the votes on the ten highest would be printed each day. All are in the race, except the ten lowest which were dropped from the race. Instead it should have been that only the votes on the ten highest would be printed each day. All are in the race, except the ten lowest which were dropped on Monday. The contest closes Wednesday night at 11 o'clock and the final result will be announced Thursday. Three counts are made each day, one at noon, at 5 and 9 p. m.

It was announced today that a couple had been secured for the public wedding at Main and Second streets Wednesday afternoon at three o'clock. Their names will not be announced until they are introduced just before the ceremony. In addition to prizes already announced, Pearl Wamsley has announced that he will give the bride and bridegroom supper and free lodging Wednesday night.

This morning's program opened with an Indiana song by the glee club, followed by a prayer by the Rev. W. M. Whitsitt of St. Paul's M. E. church. The glee club then sang "Carminia" and Judge Sparks spoke. The program closed with a state song composed by Mr. Meissner, who was formerly supervisor of music in the Connessville schools, but who is now in charge of the music at the Wisconsin state normal school at Oskosh.

"We want you all to see the display of the relics in the windows," said A. L. Gary in introducing Judge Sparks, "but we have one here which antedates all of them. He has been with us many years and we hope to have him many more."

"In spite of my extreme old age," said Judge Sparks, "I am not here to make a short address; I am not here for the purpose of freezing you."

Judge Sparks said the celebration was for the purpose of commemorating the birth of the state, but that it was a little premature because Indiana did not come into being until December 11, 1816.

"What are we here for?" asked Judge Sparks. "We are here for the purpose of taking an inventory of the past and see what we have accomplished. Indiana has taken the front ranks among all the states. There is a good deal of fun poked at us, but nevertheless, we stand the peer of all and are looked upon as the leading state of the nation. We have been a leader in every phase of life, in every activity. We Hoosiers have been leading men in every walk of life. They have poked fun at us for producing so many books, but it is a fact that Indianamen have written more than men of any state.

Over 1,100 Old Relics In Show Windows Attracting Throngs

The old relics, which have been gathered from the far corners of Rush county and which are being displayed in the store windows this week, attract daily a large throng of people. It is doubtful if anything Rushville ever attempted ever aroused such widespread interest. Over eleven hundred relics are on display. A partial list of the old relics which are to be found in the windows follows:

In the Poe Jewelry Store were displayed: a map of Indiana made in 1833 showing no railroads; owned by William Poe; a clock 91 years old which is still running; a horn 120 years old owned by Ed Benedict; a grafting knife 75 years old owned by Ed Benedict; a violin 110 years old loaned by J. W. Ayres, which was once owned in the Brown family; a scenic clock 60 years old from Switzerland, property of William Poe; a New York Herald published in 1865 giving the account of the death of Lincoln; a sun dial, 102 years old, the first time-keeper in Rushville; ear rings, brooch, and bracelets owned by Mrs. Laura Carmichael; ear rings 90 years old owned by Mrs. Robert Cox; an original Waturbury watch; a watch 107 years old owned by Harvey Allen, made by a firm which still exists; a spoon made from silver knee buckles, owned by Mrs. Fred Boxley; a pair of spectacles 97 years old used by Thomas Poe; a number of early coins loaned by George Urbach; an English watch owned by Squire Poe; a medical book published in 1653, owned by Dr. Will Coleman; a tea pot 125 years old loaned by Charles

Bateman; an old pitcher loaned by Mrs. James Nixon and Indian pipe presented to the late John Moses in 1871.

At the Kennard Jewelry Store were shown: an autograph album kept by Miss Amanda Gregg 75 years ago; a silver candlestick 125 years old owned by the great grandmother of May Allen; glasses worn by Judge John Gregg 100 years ago, loaned by Miss Sue Gregg; a china basket and two lamps 100 years old, loaned by Mrs. George Wingerter; a gun 75 years old; the oldest paper money made in this country, owned by Miss Sue Gregg; a Roman coin 1600 years old, given by Mrs. Douglas Morris; a pearl handled knife, the wedding present of Miss Matilda Hamilton in 1816, loaned by Miss Sue Gregg; a coin 1800 years old, an heirloom in the Ben Craig family; ear rings worn by Miss Caroline Sutherland at her wedding in 1815; cuff buttons and pins worn by Eliza Kennard in 1816; a snuff box loaned by Mrs. A. L. Gary; a silver pitcher loaned by Mrs. Jane Kincaid that has been handed down for 4 generations; ear rings 75 years old, owned by Mrs. Douglas Morris; a watch charm 54 years old, carved from a beef bone by Jesse Spann when in the Union army; spectacles of the great-grandfather of Mr. Innis near Milroy; a cup and saucer 100 years old, owned by the great grandmother of Mrs. Mary Bohnnon and one 70 years old used by the mother of Mrs. Bohnnon; and 2 watches 125 years old.

SERUM PLANT BEING ERECTED

Material is Being Placed on Ground and Active Work is Started on New Structure

WILL GO UP ON 70-ACRE TRACT

Will be in Charge of Competent Superintendent and Federal Inspector Will be Here

Active work has been started on the plant of the National Serum company which is to be erected on a tract of seventy acres just south of Jersey City.

The contract has been let and material is now being placed on the ground. An eight-inch well is being dug. It is stated that few drillers in this locality can drill a well of this size and for that reason some trouble was experienced in finding a contractor. J. D. Overlees of Arlington has the contract.

The company recently took up the lease and recorded the deed to the seventy acres of land, paying \$200 an acre for it.

The plant will be under U. S. government supervision which means that an inspector employed and paid by the U. S. government will be located at the plant all the time, and no serum will be allowed to leave the plant until after its purity and potency shall have been thoroughly established.

Doubtless few persons have realized the immense value of the National Serum company to Rush county farmers and other hog raisers, in this vicinity but those who have become interested are already boosters and the success of the institution is assured at its very inception.

One of the best qualified serum men in the United States has been employed as superintendent. He will

BOTH CHAIRMAN ARE SATISFIED

Only in One or Two Precincts Did Any of Voters Fail to Register Yesterday

TROUBLE WITH TRANSFERING

In Just Two Exceptions Registration is Lower Than Two Years Ago, Records Show

The registration of yesterday was termed satisfactory by party leaders today. According to reports, a full registration resulted and in only one or two precincts did any of the voters fail to register. Fon Riggs, republican county chairman, expressed himself as being well satisfied with the work of the day and Voorhees Cavitt, democratic county chairman stated, that his party was pleased with the returns.

The day passed off quietly, the only difficulty resulting in several of the registration boards not understanding how to record the names on the book of 1914 onto the book kept for yesterday's registration. As a general rule the boards started numbering with the registration of yesterday and then transferred the names appearing on the old book into the new. In this way every voter was given a new number.

In one precinct this was not followed. All of the names from the old book were transferred, including those who have moved from the precinct and those who have died. The names of those not living in the precinct were not necessary to this year's registration book. The matter however, was very generally understood and this one precinct was the exception rather than the rule.

The registration showed a great increase over the registration of 1914. Up until noon today sixteen

Ebbetts Field, Brooklyn, Oct. 10—The weather was cold and cloudy at the start of the third game of the world's series games here today. Hi Myers, hero of yesterday's game was given a great hand as he came on the field. It looks like a capacity crowd, which means about 30,000 persons.

FIRST INNING
Boston—Hooper flied out to Wheat. Janvrin out, fouling to Daubert. Shorten singled to center. Hobby singled to right and Shorten was thrown out taking third. Stengle to Mowrey. No runs, two hits, no errors.

Brooklyn—Myers was hit by a pitched ball. Daubert safe at first and Myers at second on a bunt in front of the plate. Daubert credited with a hit. Stengle sacrificed, Mays to Hobby. Both runners advanced. Wheat was walked purposely, filling the bases. Myers out at plate, Hobby to Thomas on Cutshaw's grounder. Mowrey fanned. No runs, one hit, no errors.

SECOND INNING
Boston—Lewis flied to Myers. Gardner popped to Cutshaw. Scott flied to Wheat. No runs, no hits, no errors.

Brooklyn—Olson out, Scott to Hobby. Miller fanned. Coombs out, Scott to Hobby. No runs, no hits, no errors.

THIRD INNING
Boston—Thomas popped to Cutshaw. Mays fanned. Hooper singled to center. Hooper out stealing. Miller to Cutshaw. No runs, one hit, no errors.

Brooklyn—Myers out* Scott to Hobby. Daubert singled to right,

Stengle singled to left, Daubert staying on second. Wheat flied out to Lewis. Cutshaw singled to right, scoring Daubert. Stengle going to third and Cutshaw to second. Mowrey out, Scott to Hobby. One run, three hits.

FOURTH INNING
Boston—Janvrin flied to Stengle. Shorten singled to left and was out, stealing. Miller to Olson. Hobby flied to Myers. No runs, one hit, no errors.

Brooklyn—Olson beat out a bunt and took second on Gardner's poor throw. Gardner was charged with an error and Olson given a hit. Miller sacrificed, Mays to Janvrin. Coombs singled to right, scoring Olson. Myers sacrificed, Mays to Hobby. Coombs taking second. Daubert out, Scott to Hobby. One run, two hits, one error.

FIFTH INNING
Boston—Lewis flied to Wheat. Gardner popped to Mowrey. Scott out, Coombs to Daubert. No runs, no hits, no errors.

Brooklyn—Stengle fouled to Gardner. Wheat walked for the second time. Cutshaw out, Mays to Hobby. Wheat taking second. Mowrey walked. Olson tripped to left, scoring Wheat and Mowrey. Miller out, Scott to Hobby. Two runs, one hit, no errors.

SIXTH INNING
Boston—Thomas out, Olson to Daubert. Henricksen batted for Mays. He walked. Hooper tripped to left scoring Henricksen. Janvrin popped to Cutshaw. Shorten singled to center, scoring Hooper. Hobby out, Coombs to Daubert.

PEACE REPORTS
ALL UNFOUNDED

Ambassador Gerard, Who Arrived Today, Carries no Message to Wilson From Kaiser.

TRIP SOLELY FOR VACATION

German Ambassador Not Here to Discuss U-Boat Menace Either, It is Positively Stated.

By ROBERT BENDER.
(U. P. Staff Correspondent.)

Long Branch, N. J., Oct. 10.—Ambassador Gerard who arrived in New York this morning carries no message from the Kaiser to President Wilson suggesting American intercession on behalf of peace.

Nor does he come for the special purpose of discussing with the president a reported revival of the submarine menace. It may be stated positively that Gerard's trip to this country is made entirely to give the American Ambassador a vacation.

There's no doubt that the president will want to know all developments regarding possibility of peace in the near future and regarding a preparation which may be under way in Germany for a renewal of the U. boat activity.

No date has been set for his seeing the president. The president leaves tomorrow evening for Indianapolis so it is likely that Gerard's visit with him will be delayed until the first of next week.

REFUSES INTERVIEWERS

(By United Press.)

New York, N. Y., Oct. 10.—Returning from Berlin aboard the liner Frederick VIII, James W. Gerard today refused to answer any questions relating to his visit in America at this time saying that the simplest question might involve him.

He stated that he did not know when he would return to Germany but that he would surely go back.

A delegation of New York city officials went down the bay to meet the ambassador.

Upon landing the party went to the city hall where the ambassador was formally welcomed.

his preliminary remarks. Mr. and Mrs. Blackledge have been making their home in Indianapolis for a few years but have returned to their old home northeast of the city, now occupied by their son Alfred Blackledge and family.

George W. Legg of Washington township was eighty-seven years old today. The occasion brought him many kind remembrances from relatives and friends. Although in ill health during the last two years and confined to his room most of the present year, he was able to converse with those who visited him, most entertainingly and gave all a glad welcome. Mr. Legg's entire life has been spent on the farm where he lives and he is loved and most highly esteemed by all.

In another installment of votes published in the Cincinnati Enquirer today, Harry S. New, a republican candidate, leads in the senatorial race with 75 votes and Watson is second with 67. Senator Kern, New's opponent, received 64 votes and Taggart, the other democratic candidate, received 47. On the totals New is still leading with 1528 and Watson is just 110 behind. Kern's total vote is 1217 and Taggart's an even 1000. Watson led the field in the vote taken at Greensburg.

The installment today was from the Republican company here, several business houses in Greensburg and the Nordyke and Marmon company in Indianapolis. Nine votes were cast in the Republican office for Watson and seven for New. Hughes received nine to Wilson's none and Goodrich was given eight to Adair's one.

In the totals in Indiana Hughes is leading with 2007 and Wilson has 1513. Goodrich has received a total of 1869 and Adair 1341.

We have a right to be proud of all these things. Indiana has never stood on the wrong side of any moral question.

"And again, what has Rush county to be proud of? She is one of the oldest children of the state. She lacks but five years of being the oldest. Just ninety-five years ago the first court was held five miles east of Rushville."

Judge Sparks praised the public school system as the greatest factor in raising the standard of citizenship and eloquently praised the citizenship of Rushville for what it is and for what it stands. He had no praise for the chronic kickers. Judge Sparks said if they did not like Rushville they should migrate. He urged that everyone see the display of old relics so that the younger generation could realize what our forefathers had to overcome to make the present civilization possible.

Look and Feel Clean, Sweet and Fresh Every Day

Drink a glass of real hot water
before breakfast to wash
out poisons.

Life is not merely to live, but to live well, eat well, digest well, work well, sleep well, look well. What a glorious condition to attain, and yet how very easy it is if one will only adopt the morning inside bath.

Folks who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatism; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store which will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.

Deafness Cannot Be Cured
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be lost. It is a permanent condition of the mucous surfaces.

Perkins on Business.

Geo. W. Perkins, than whom no one is more competent to speak of business conditions, has written an open letter to Joseph P. Tumulty, secretary to the President, asking that Mr. Wilson point to a single specific instance wherein the Wilson administration has helped the business of the country. Mr. Perkins points to the "Seven Sisters" legislation which Mr. Wilson caused to be enacted by the New Jersey Legislature and widely advertised as solving the entire trust problem and asserts that there has never been any attempt to enforce them and that they have accomplished nothing. He points out that the Federal Trade Commission has no power to modify the Sherman Law and that he has yet to learn of an instance where that commission has been of service to business. He declares that by withdrawing from the Chinese loan arrangement, President Wilson shut the United States out of its natural opportunity to extend its trade in the Orient, and by its attitude toward those Americans who in the past have gone into Mexico, invested their money and risked their lives, the Wilson administration has done everything possible to discour-

age future enterprise of that character. The Perkins letter constitutes a complete exposure of the hollowness of Mr. Wilson's claims that his administration has helped business.

Many Would be Hosts.

The determination of the administration to transfer the Mexican Conference from New London to Atlantic City, where there are so many delightful diversions and where time may be filled with a maximum of enjoyment, has led to keen competition from other cities which would like the distinction of entertaining this unique and innocuous conference and even more to be the recipient of the funds which the United States is expending so lavishly for the entertainment of the Carranza delegates and their suites. There is prospect that as the winter advances the leading Southern resorts will become aspirants for a share of this prosperity, and lively competition between the Georgia, Florida, Alabama and Louisiana resorts is expected. Southern Senators are expected to take part in the competition and to exert the same powerful influence which has long enabled them to effect the maintenance of obsolete Southern navy yards, and the expenditure of vast sums of refurbish those which the best military and naval judgment has decreed should be abandoned. The only menace to this program is the somewhat hasty and choleric temper of Carranza.

The rhetorical Mr. Baker who now presides over the destinies of the War Department was one of the spellbinders on the government payroll who were sent down into Maine to fire the Democratic heart at public expense. In one of his speeches he uttered this gem: "This is a time when, having pressed forward nobly on a high and difficult course, the finish should be left to those who have demonstrated their ability by their work already done." If Mr. Baker's argument had found lodgment in the President's mind, where would Mr. Baker be now? He certainly would not be in the Cabinet—for Mr. Garrison, who had pressed forward nobly on the high and difficult course of trying to convert the President to the cause of preparedness, would have been left to finish the work for which he had so ably demonstrated his capacity.

Don't forget that Christmas days are again drawing near. Don't forget that merchants in this town have the goods that you want to buy for those Christmas days. Don't forget that every dollar you spend with a local merchant remains in local circulation and enriches the community just that much. Don't forget that every dollar you spend outside of this town remains outside and decreases the money in local circulation just that much. Don't forget that an advertisement of a local merchant in this paper is an indication that the merchant is prepared to "make good" or he would not resort to publicity in soliciting your trade. Don't forget the good advertiser is generally a "live wire," and that live wires are better than dead ones.

It is quite true that a man is a fool for running after his own hat on a windy day when there are plenty of other people who will do it for him.

They sell quinine by the grain, and when are they going to begin measuring wheat the same way?

You might as well not have any

religion at all as a religion you embrace as an insurance against fire.

There seems no end to the heights to which women attain. One is reported to have been in a Zeppelin that raided over London.

If all the knocking were done on the outside of the door, how nice it would be.

A wise head often contains a deal of foolishness.

SOLILOQUY AT SHADOW LAWN

Where are they gone, the old familiar faces?
I had a friend—McCombs, but he left me,
Left me slowly but surely, when I did not need him.

All, all are gone, the old familiar faces!

Once I had Bryan; he was my friend
In my hours of struggling in that great convention,
But now he's gone. Left me with "God bless you!"
Upon his lips. Gone, are the old familiar faces.

I had a friend; a truer friend had no man.
Like an ingrate, I wounded my friend acutely;
And he, good Colonel Harvey, left me.
Left me
To muse on the old familiar faces!

At my right hand sat my friend
Who was the strong arm of my Administration—
Garrison, upright and honest—but he too has left me;
Left me, when I deceived him—gone are the old familiar faces!

At Shadow Lawn, where new friends swarm around me,
Earth seems a desert I am bound to traverse,
Seeking to find the friends who've left me;
But all, all are gone—the old familiar faces!

Editorial Comments

If the Democratic leader who advocates putting dyes on the free list to encourage the industry were a surgeon his method of setting a broken limb would be to amputate the patient's leg at the neck.

Optimism is what makes the Democratic party, which has fooled some of the people only three times in fifty years and has never yet fooled all of the people some of the time, think that it can now fool all of the people all of the time.

President Wilson hasn't been able to figure out yet whether he is going to be on the stump or up one.

If the paper shortage becomes much more serious the first thing we know the machinery of the State Department will be coming to an abrupt stop.

Then, too, according to the Democratic campaign book that among the more important enactments of the Wilson Administration may be mentioned Magna Charta and the Ten Commandments.

Secretary Redfield converses glibly in terms of billions until it comes time to make a campaign contribution, when it is disclosed that all he really knows about mathematics is \$100.

Everything has gone up under Wilson except the price of dead Americans.

Senator Jimmah Lewis has purchased a new volume of "Unfamiliar Quotations" and expects to be able any day now to give us the classical derivation of "pitiless publicity" and "strict accountability" in the original Babylonian.

Add famous sayings of history: "I will surrender on this line if it takes all summer!"

The Democratic revenue bill, as completed, is regarded as so perfect that the chances are that the taxpayers of New York, Massachusetts and Illinois will be able to build 3,000 more miles of good roads in Alabama next year.

Mr. Hughes is talking to the women of the land in the homely language of the fireside and we expect to witness an impressive rallying of the sex on the first ironing day after the first wash day in November.

NOTICE OF FINAL SETTLEMENT OF ESTATE.

Notice is hereby given to the creditors, heirs and legatees of Emerson Miller, deceased, to appear in the Rush Circuit Court, held at Rushville, Indiana, on the 23d day of October, 1916, and show cause, if any, why Final Settlement Accounts with the estate of said decedent should not be approved; and said heirs are notified to then and there make proof of heirship, and receive their distributive shares. Witness, the Clerk of said Court, this 26th day of September, 1916.

ESTATE HOT STORM The Stove with a Little Furnace In It

Competent authorities tell us that in the ordinary heating stove, 50 to 75 per cent of all heat generated from the coal goes up the chimney—a dead waste of heat and of money. For years designers have been trying to lessen this waste and the result of their labors is shown in the ESTATE HOT STORM—not a stove in the common sense of the word, but a COMBINATION STOVE and FURNACE—two heating systems in one. Costs very little more than the ordinary stove to buy, no more to install and much less to operate than the ordinary furnace.

Come and see how the "Little Furnace" blocks up rushing heat and sends it pouring out the top INTO the room—not up the chimney. See the JOINTLESS LEG BOTTOM and BASE—as good a fire keeper in twenty years as it is today. The low bottom, from two to three inches closer to the floor than any other make. Absolute cleanliness, everything in the fuel consumed except the rock and slate in the coal. The indestructible HOT BLAST system—no rings to burn out or fill with ashes.

We can conscientiously guarantee to produce more heat for less money than any soft coal heater in the world.

WORTH KNOWING

Women are liable to ailments which cause constant ill-health and on which they may consult doctors without much relief. It is well worth knowing that they can get at the nearest drug-store a simple medicine, made of roots and herbs, which is just what they need to recover health. That medicine is Lydia E. Pinkham's Vegetable Compound. —(Adv.)

SHOWS GROWTH OF HIS CHURCH

The Rev. W. F. Richardson Compares Development of Christian Faith With United States

ALL CREEDS ARE INVITED

He Urges Continuance of the Policy to Keep Local Congregation The Unit

(By United Press.)

Des Moines, Ia., Oct. 10.—Church men and women of all creeds were invited to attend general conventions of the Church of Christ, thus making of these conventions truly world meetings for propagating Christian thought, said Rev. W. F. Richardson, of Kansas City, president of the convention here, in his address last night.

The Rev. Mr. Richardson compared phase by phase, growth of the Christian church and of the United States, showing them to be parallel. America and the church both had their periods of discovery, revolution, and construction. Both now are in the phase of conservation.

The Rev. Mr. Richardson urged continuance of the church policy of making the local church the most important unit, and of fighting all efforts toward ecclesiastical organization.

"In inviting our sister churches to join with us in such a convention as this," he said, "we are returning to the primitive ideal of the fathers, as expressed by the first missionary organization which they effected.

"The world is asking, 'What is your aim—and how are you embodying it in your community life?' This challenge we must meet or we will harden into a sect, and be relegated to the limbo to which all sectarianism is ultimately doomed.

"Our forces are but partially employed at present. Of our 9415 congregations in the United States and Canada, only 3007 gave last year to our foreign Christian missionary society, 2,173 to our American Christian missionary society, and but 1190 to the board of church extension.

"In coming out of the Babylon of sectarianism it is not possible that we have brought somewhat of its spirit with us. We have been over-eager for growth in numbers, anxious to make a showing in the diversity and rapid increase of our activities. We need to think if spiritual values rather than merely arithmetical. Biologists will tell us that a three legged chicken is not more chicken, but less, than one with two legs. The former is more legs but less chicken. A freak is not a forward step in any development of life."

ASKS CHANCE FOR FORMER PRISONERS

Demand Made For Fair Treatment For Men Released Before American Prison Association.

DELEGATES ARE ALL AGREED

(By United Press.)

Buffalo, N. Y., Oct. 10.—Practically all of the delegates to the Congress of the American Prison Association, in session here, today concurred with W. G. MacLaren, Superintendent of the Oregon Prisoners, Aid Society, who said prisoners should be closely scrutinized prior to release so that mental defects may be taken care of. He pointed out the defective released speedily go back to crime.

"We should take care of the defectives," said MacLaren, "and should demand that the police and peace officers give other released prisoners a chance to get along. They are all too ready now to bound them back to prison."

Those who spoke at the meeting this morning were: Rev. D. Miller of Western Penitentiary, Allegheny, Pa.; Rev. S. J. Dowling, State's Prison, Wampum, Wis., and Rev. Robert Walker of the Massachusetts State Reformatory.

come here backed by ten years of experience.

Up to the time the plant is completed, the company has arranged with another company to take care of farmers and other hog raisers who are interested in the proposition, by supplying them with serum.

It was decided to locate the National Serum company here because Rush county is not only the largest hog raising county in the state but because there is only one other county in the Union which raises as many hogs as this county.

The tract of land on which the buildings will be erected consists of seventy acres. There will be a main building, a power house and three large hog houses with pens adjoining on each side. All of the buildings will be of reinforced concrete, steel and plated glass and will contain all of the improvements that will be found in any of the most thoroughly equipped serum plant. The company says the plant will be second to none in the United States. What land is not required for the building will be used for the hogs to run on. From one thousand to three thousand hogs will be kept on hand all the time.

SUIT FOR \$10,000 DISMISSED TODAY

Case of Guy Shutar Against L. E. & W. is Taken off Docket by Plaintiff and Costs Paid

GEO. GRAHAM GETS JUDGMENT

The damage suit of Guy Shutar against the Lake Erie and Western railway, in which \$10,000 was demanded, was dismissed today and the costs paid. The plaintiff dismissed the suit and paid the costs. It was alleged in the complaint that Shutar was hurt when a cut of ears bumped into the passenger in which he was riding, causing him to be thrown forward on his face.

Judgment for \$346.80 was given in favor of George Graham against J. E. Hardin. The suit was on a note in which \$350 was demanded. A. L. Gary withdrew his appearance for Mr. Hardin and permitted the judgment to be taken by default.

COTERIE MEETING

At the called meeting of the Coterie Club held with Mrs. D. D. Van-Osdol yesterday afternoon a committee was appointed to make arrangements for the program for this year. The committee was composed of Mrs. Helen Pierson, Mrs. Raymond Hargrove, and Mrs. Bert Trabue. Several other business matters relative to the year's meetings were decided upon. Dainty refreshments were served by the hostess. The next meeting of the club will be with Mrs. Howard Barrett

SURPRISE AT NEW HOME

Mr. and Mrs. Jake Parrish have recently moved into their new home near their former home northeast of the city. This was the cause of the surprise party given on them last evening when a number of their friends came in upon them bringing their suppers. An elegant pitch-in supper was served and followed by a pleasant evening together, which was enjoyed by Mr. and Mrs. Hubert Innis and daughter, the Rev. and Mrs. C. M. Yocum and son, Miss Alice and Miss Leonora Norris, Mrs. Ella Worsham and daughter, Ellen, and Mr. and Mrs. Cary Jackson.

JARRELL-MYERS

The Christian parsonage at Milroy was the scene for a happy event when Miss Dora Helen Fitz Jarrell, daughter of Mr. and Mrs. Frank Jarrell of Richland, was joined in marriage to William Myers, son of Mrs. Bessie Myers. The Rev. Harry Phillippi performed the ceremony in the presence of a few friends and relatives. The bride was lovely in a tailored suit of navy blue with accessories to match. Her hat was black trimmed in turquoise blue. She is a very popular young lady in that community. Mr. and Mrs. Myers are making their home on a farm north of Milroy. Those present at the wedding were Mr. and Mrs. Smith, Mr. and Mrs. Kelly, Mr. and Mrs. Jarrell, Mrs. Root, Mrs. Myers, Miss Hazel Ryckman and the Rev. and Mrs. Phillippi.

DISCUSSION OF DRAMA

The programs being given at the meetings of the Monday Circle are proving to be very interesting. Yesterday at the meeting of the Circle held at the home of Mrs. Jess Pugh, Mrs. Robert Innis discussed in a paper "The Technique of the Drama." Mrs. Innis in a very clear way brought out the requirements of every well organized drama and showed the way in which it should be built up.

"The Relation of the Drama to Literature" was the subject of the paper read by Mrs. E. B. Thomas in which she proved that literary artists were not always successful dramatists; and that even writers of good plays did not always produce plays that could be successful.

SOME HAIR; SOME REASON.

Paris, Oct. 10.—A French general estimates that 120 tons of fur will be shed by the poilus as a result of the order for all ranks to get rid of their beards. The measure was taken because the gas masks do not fit all designs of foliage, letting in poisonous fumes. Mustaches are still permitted.

INDIANA BAPTISTS MEET

Marion, Ind., Oct. 10.—The eighty-fourth annual meeting of the Indiana Baptists convention opened here today and will continue three days. About 700 delegates, who represent 75,000 church members, are attending the meeting. The opening session today was devoted to a ministers conference on Sunday school matters. O. K. McKay president of the convention, will deliver this opening address tonight.

AND ON JUDGMENT DAY—

Indianapolis, Ind., Oct. 10.—Several sermons, a bible, two suits of clothing, insurance papers and all the money that the Rev. Brinklow possessed, disappeared when a thief walked off with his suit case at the terminal station. The Rev. Brinklow said that the sermons were the greatest loss. He was enroute to Taylorville, Ind.

Facts Regarding Haviland
And All Imported China

China is absolutely impossible to obtain from England, France or Germany, and jobbers are asking unreasonable prices for the small stocks they still have. Last year, and even the year before we purchased much more French-English and German China at the old price than we needed for those years. Therefore, we have TODAY a fair stock of China at the same prices as two years ago. At the same time we do not consider the stock adequate for the Christmas demands.

COST OF LIVING STILL GOING UP

During Last Four Years Price of 15 Articles of Food Have Increased One-Seventh

CAMPAIGN PLEDGE RECALLED

Family Which Paid \$300 a Year For These Articles Now Has to Pay \$342 Annually

Washington, Oct. 7.—Under the Wilson administration and the Democratic tariff law the cost to the people of the United States, for 15 articles of food alone has increased in the last four years approximately one-seventh.

An American family, under the Taft administration, that spent \$300 per year for these foods, is now paying for the same articles, under the Wilson administration, \$342 annually.

Figuring five persons to a family this is an increase of \$8.40 for every man, woman and child in the United States, or the stupendous total of more than \$800,000,000.

Under the Underwood tariff law and the Wilson administration the high cost of living has increased by leaps and bounds.

Since June, 1912, up to June, 1916, according to the latest available Government statistics there has been an increase of 14 per cent. in most of the staple foods.

The Democrats have not kept their promise, made in the Baltimore platform, to reduce the high cost of living. On the contrary every family in the United States is paying higher prices for the principal articles of food, 14 per cent higher than it cost them under the Taft administration and a Republican tariff law.

In the Baltimore platform, on which Wilson was elected President, is the following plank:

"The high cost of living is a serious problem in every American home. The Republican party, in its platform, attempts to escape from responsibility for present conditions by denying that they are due to a protective tariff. We take issue with them on this subject, and charge that excessive prices result in a large measure from high tariff laws enacted and maintained by the Republican party and from such trusts and commercial conspiracies fostered and encouraged by such laws, and we assert that no substantial relief can be secured for the people without import duties on the necessities of life are materially reduced and these criminal conspiracies broken up."

A 14 per cent increase in the cost of the principal food stuffs is the way the Democrats and the Wilson administration have kept this pledge to the people.

The following table, prepared by the Bureau of Labor statistics of the Department of Labor, shows relative prices of 15 of the principal articles of food in June of each year, 1912 to 1916, included. To form a basis for the table that price

for June, 1912, is placed at 100, and the price for each succeeding year is figured accordingly by the Bureau statisticians.

A careful calculation of this table shows that with 100 as a basis for 1912, the 1916 per centage is 114, or an increase of 14 per cent in the cost of the combined food stuffs since the declaration of the Democratic platform. Following is the government table showing the increased cost of living under Democratic rule:

Month	Sirloin	Round	Rib	Pork
Year	Steak	Steak	Roast	Chops
June 1912	100	100	100	100
June 1913	109	109	103	110
June 1914	110	114	105	114
June 1915	110	112	104	109
June 1916	120	126	115	121

	Ham	Lard	Eggs	Butter
June 1912	100	100	100	100
June 1913	112	127	105	104
June 1914	110	104	106	100
June 1915	106	102	101	103
June 1916	120	116	113	109

Increases in the cost of these principal articles of food could not have been affected by the European war prior to June, 1914, and as food products imported from Canada since that time have been the largest in our history it is evident to all that the war has had no influence whatever in causing the cost of living to increase 14 per cent under the Wilson administration.

Democratic claims that food stuffs on the free list would greatly reduced their cost is a delusion and a sham.

On September 20th the Bureau of Labor Statistics issued a report called "Wholesale Prices in 1915."

In this report it is stated: "Wholesale prices of commodities average considerably higher in 1915 than in the preceding year * * * Prices in the cloths and clothing group showed a steady advance during the entire year, the increase from January to December being more than 11 per cent * * * Of 346 commodities for which the Bureau collected wholesale prices for 1914 and 1915, 174 commodities showed an increase between these two years * * * Articles showing an increase of more than 20 per cent were hide, rye, wheat, wool. The group of farm products showed a two per cent increase in the average for 1915 over that for 1914.

TAKES TRIP TO FLYING SCHOOL

United Press Correspondent Visits British School of Aviation and Inspects Place.

LESSON FOR UNITED STATES

Many of the Machines Come From America But Brains Are Supplied by France.

BY WILBUR S. FORREST.
(U. P. Staff Correspondent.)

British Central Flying School, Sept. 5.—(By Mail)—Nestled down amid creases of land on the edge of a great plain was discovered today the British eagle's eyrie.

By courtesy of the British Foreign Office, the United Press correspondent was able to spend the day among a massive "nest" of buildings where young eaglets learn to combat the double eagle of Germany. It takes about eight weeks for one of these young Britishers to develop from an unsteady yellow fuzzy creature into a defiant grey bird of prey. Usually two months' tuition in and around these flying school buildings sends a young flying bird direct to the actual test of war.

A group of large hangars surrounding a concrete fortlike building—all constructed since the beginning of the war—loomed up suddenly over a hill as an international party of journalists motored onto the plain. The scene might have come out of the movies from Arizona or New Mexico. The buildings might have been one of those newly constructed movie towns.

America's infantile flying service could learn a lot at the British flying college. Much of the equipment which made the British "nest" came from the United States but the knowledge—the more important part—came from Northern France. "Professors" of flying, who summon their classes at fixed hours of the day, didn't learn from books. They dragged their knowledge from the school of actual experience since August, 1914.

A Providence, R. I. firm could furnish any American eagle "nest" with big lathes such as were seen today in one of the big buildings where air students are taught some of the technical points of learning to fly. There were aeroplane engines, blocked up for demonstration, which came to England from a well known engine factory in Connecticut. Another building housed sewing machines for stitching fabric for aeroplane wings. These sewers bore a name known in every American household. Neat little guns, peering over blunt noses of fast monoplanes, spat their first test bullet on American soil. Somewhere else in the camp, the

wireless was buzzing away. The slow dots and dashes were distinctly heard from a double headpiece which the correspondent adjusted to his ears.

"What are they saying?" was asked.

"That's the German wireless at Nauen sending its daily wheeze to Sayville, L. I., and elsewhere," replied a student wireless operator.

There are other American things in the "eagle's nest."

When young eagles soar to great heights and aim their dummy practice bombs at slowly moving objects on the ground these objects are often buglike harvesting machines reaping yellow wheat in fields which skirt the edge of the plain. The harvesters are never bombed but they make excellent "aiming" and represent what at the front would probably be an enemy gun.

SAGE TEA DANDY TO DARKEN HAIR

It's Grandmother's Recipe to Bring Back Color and Lustre to Hair.

You can turn gray, faded hair beautifully dark and lustrous almost overnight if you'll get a 50-cent bottle of "Wyeth's Sage and Sulphur Compound" at any drug store. Millions of bottles of this old famous Sage Tea Recipe, improved by the addition of other ingredients, are sold annually, says a well-known druggist here, because it darkens the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray or becoming faded have a surprise awaiting them, because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful.

This is the age of youth. Gray-haired, unattractive folks aren't wanted around, so get busy with Wyeth's Sage and Sulphur Compound to-night and you'll be delighted with your dark, handsome hair and your youthful appearance within a few days.

This preparation is a toilet requisite and is not intended for the cure, mitigation or prevention of disease.

A. J. Wyrick Tells How Tanlac Quickly Banished His Troubles

Kokomo, Ind., Oct. 9.—"Tanlac certainly has done more for me than anything else. Since taking the medicine I'm able to attend to my stock after being unable to work for five years. I heartily recommend Tanlac."

This was the tribute paid the Master Medicine a few days ago by A. J. Wyrick, a prominent farmer, who lives on rural route No. 7, Kokomo.

"I had rheumatism," Mr. Wyrick continued. "I couldn't turn over in bed at night without holding my head with both my hands, the rheumatic pains were so severe."

"My condition is greatly improved since I have taken two bottles of Tanlac. The rheumatic pains do not bother me any more now and I'm back at work again."

Tanlac, the Master Medicine, is especially beneficial for stomach, liver and kidney trouble, catarrhal complaints, rheumatism, and the like and is a fine blood purifier. Tanlac is now sold exclusively in Rushville at F. E. Wolcott's in Arlington at Mrs. L. T. Davis's; in Carthage at J. H. McCarthy & Son's, and in Milroy at Barton and Shepard's.—(Adv.)

Statistics Prepared by Government Prove This is History of Last 12 Years.

11.3 PER CENT ARE IMPROVED

Mileage of Surface Highways is Increasing at the Rate 16,000 Miles a Year.

Washington, Oct. 10.—Rapid increase in total expenditures for roads and bridges, growth of building and maintenance activities under State supervision, and a sharp decrease in the proportion of contributions in the form of statute labor mark the development of highway work in the United States during the past 12 yrs. These facts are brought out by statistics for the calendar year 1915 recently compiled by the Office of Public Roads and Rural Engineering of the U. S. Department of Agriculture.

The total length of public roads in the United States outside the limits of incorporated towns and cities was about 2,452,000 miles on January 1, 1916. Of this, about 277,000 miles, or 11.3 per cent, were improved with some form of surfacing. The mileage of surfaced roads has been increasing at the rate of about 16,000 miles a year, and in 1915 approximately one-half of this increase was made under the supervision of State highway departments. In addition these departments supervised the maintenance of nearly 52,000 miles of main and trunk line roads.

The increase in expenditures for road and bridge work in the United States has been from approximately \$80,000,000 per year in 1904 to about \$282,000,000 in 1915, an increase of more than 250 per cent. The expenditure of State funds during this same period increased from about \$2,550,000 to more than \$53,000,000. In addition, more than \$27,000,000 of local funds was spent under State supervision in 1915, bringing the total road and bridge expenditures managed by the States to \$80,514,699. This amount is greater than the total expenditures for roads and bridges from all sources in 1904.

The growth in importance of the State highway departments has been rapid. The first of these agencies was credited in 1891 in New Jersey and now some form of highway department exists in every State except Indiana, South Carolina, and Texas. Since their inception these departments had expended to January 1, 1916, an aggregate of \$265,350,825 in State funds for road and bridge construction, maintenance, and administration. They had constructed over 50,000 miles of roads in co-operation with the States. More than 40,000 miles of these roads were surfaced.

The falling off in the value of road work performed by statute and convict labor was from \$20,000,000 in 1904 when the total road expenditures were \$80,000,000 to about \$15,000,000 in 1915 when the total expenditures had grown to \$282,000,000. This was a reduction from 25 per cent of the total in the former year to less than 5 per cent of the total in 1915.

An increase in the use of better and more expensive types of roads also is shown by the recently compiled statistics. This development has been due, in large part, to the great increase in automobile traffic. It is estimated that there are now approximately 2½ million automobiles in use on the roads of the country, or 1 car for every mile of road. This present motor traffic is in excess of traffic of all sorts 12 years ago.

The cash road and bridge expenditures of the United States averaged only \$28 per mile of rural roads in 1904. In 1915 this average had grown to \$109 per mile. New Jersey led all other States both in 1904 and in 1915 with \$221 and \$475 per mile respectively. Nevada made the least expenditure in both years—\$3.72 per miles in 1904 and \$17 per mile in 1915.

MANY CHANGES ARE PLANNED

Episcopalians at General Conference Expect to Change Marriage Ceremony and Lord's Prayer.

"KEEP" IN PLACE OF "OBEY"

Recommendations Will be Based on Theory That Modern Ways Have Robbed Argument

(By United Press.)

St. Louis, Mo., Oct. 10.—The Ten Commandments, the marriage Ceremony and the Lord's Prayer as they have stood through the ages are to be changed by the General Convention of the Protestant Episcopal church which convenes here tomorrow if the reports of committees and sub-committees are endorsed.

In the marriage ceremony the committee will recommend that the word "Obey" in the bride's promise be replaced by "Keep," that the giving away of the bride be omitted entirely and the groom's promise to "endow" the bride "with his worldly goods," be eliminated.

A committee will recommend that the commandments be shortened by the omission of the reason for their observance. The recommendation will be based on the fact that the reasons were peculiar to the life of the Israelites and that changed modern ways have robbed the arguments of much of their weight.

The committee on revising the Lord's prayer will recommend the elimination of the words, "For Thine is the Kingdom and the Power and the Glory Forever." In requesting the omission the committee will say the words constitute a part of the Doxology added by early translators and that they are not in the original text of Holy Scriptures. The omission would make the prayer identical with the Roman Catholic version. The same committee will probably ask the elimination from the Book of Common Prayers the prayers for "Jews, infidels and Turks." The proposal is based on the ground that it is unwarranted to class the Jews with the others.

A canon prohibiting marriage when either party to the contract has a wife or husband living and has been divorced for any cause arising after marriage will be presented for action. Many notable churchmen gathered here today for the opening.

HEAP FIREWATER

(By United Press.)

Pierre, S. D., Oct. 10.—The elimination of the enlivening Mexican Peyote bean from the diet of the South Dakota Reservation Indians is the mission of Earl B. Putt a chemist, who left for Washington today to obtain anti-bean legislation. The bean is supposedly a substitute for booze, which, as booze is barred from the Indians.

A brew from the bean causes the Indians to grow utterly indifferent to bulldogs and to see pink elephants with wings. Putt doesn't know whether to tackle the job under the Harrison drug law or the Indian anti-firewater regulations.

Greatest enemies of your TEETH

are Pyorrhea and decay. Both usually develop only in the mouth where germ-laden tartar is present. "But I brush my teeth," you say. Yes, you brush them, but do you REALLY CLEAN them? Tonight, after brushing your teeth, go to the mirror and examine them. In all probability you will find an accumulation of tartar on the enamel and bits of food deposit hiding in the crevices.

Senreco, the formula of a dental specialist, REALLY CLEANS. It embodies specially prepared, soluble granules unusually effective in cleaning away food deposits. Moreover, it is particularly destructive to the germ of Pyorrhea.

Go to your dealer today and get a tube of Senreco—keep your teeth REALLY CLEAN and protect yourself against Pyorrhea and decay.

Send 4c to Senreco, 304 Walnut Street, Cincinnati, Ohio, for trial package.

Jesse Vandivier and Mr. James Meek attended the Hamilton fair last week.

M. H. Fielding brought home from the Hamilton fair 16 ribbons with 19 birds. He met with contestants from Illinois, Kentucky, Ohio and Indiana. He has the famous Buff Orpington chickens.

Preaching at M. E. church both morning and evening at morning 10:30 a. m., and evening at 7 o'clock p. m. The changes were made because some think 7:30 too late in the evening. Now there are preaching services every other Sunday evening.

Leu Matney and Earl Ruff attended the Hamilton fair last week. Chas Combs and Mr. and Mrs. William Combs also attended the fair.

Mr. Frank Murphy having something like 27 pigs which seem to be doing so nicely, he took great delight in caring for them. He counted them one morning last week and 8 were missing. They could not be found in the orchard where their houses were placed. He thinks they were stolen.

C. L. Reed drove his last trip as rural carrier on Saturday, having served about 12 years.

Mr. and Mrs. Everett Stevens of North west of Rushville near Occident passed through our town enroute to spend the day with Mr. and Mrs. Osrow Stevens, near Orange and family Sunday.

Ray Carpenter has moved into the house of A. L. Chew's on the east side.

The Rev. Dan Ryan preached at Falmouth Sunday afternoon. He preached twice at Glenwood. He will preach at Glenwood at 10:30 a. m. Orange 2:30 p. m., and at Falmouth at night at 7:30. This will

require quite a good deal of traveling to and from the county line road. There was the usual services at the U. P. church Sabbath afternoon.

CENTENNIAL GETS ON WAY MERRILY TODAY

Opening Ceremony, With Address by Judge Will M. Sparks and Music by High School Girls Glee Club Held

Wedding Set for Wednesday at 3 p. m. Will Be Held Because Couple Has Been Secured

QUEEN RACE BECOMES WARM

First Free Attractions are Given Today—Arlington Band Will be Rest of Week

The Rush county Centennial, Home Coming and Fall Festival got under way today and will be in full swing through the week, the closing feature of which will be the awarding of more than a thousand dollars of merchandise, given by Rushville merchants, at the platform at the corner of Second and Main streets.

Chief interest centered this afternoon on the baby carriage and doll cab parade scheduled to take place at three o'clock. The committee was a bit dubious several days ago about the prospects of a turnout, but the parade proved to be all that was expected of it—and then some. Many beautifully decorated baby and doll cabs, headed by the Ziedman and Pollie band, passed by in review for the consideration of the judges.

The weather man could not have been more considerate than he was today, and everyone hoped that he would feel as kindly towards Rush county's celebration the remainder of the week as he has today. After a start yesterday that looked decidedly discouraging, the week promises to be exceptionally good. The weather indications for tomorrow are fair and warmer.

As their part of the opening ceremony, the court house bell and the church bells were the only things that ran true to form. They helped out with the noise-making at 10:30 o'clock, but the manager of the Innis-Pearce furniture factory called the committee shortly before time for the opening and said that it required so much steam to blow the whistle that the factory would have to be shut down, and that, therefore, their factory whistle would not blow. The result was that none of the factory whistles helped out.

A. L. Gary, member of the program committee, presided at the ceremony that started the Centennial on its way. A girl's glee club from the high school sang three songs, two of them about Indiana, and Judge Will M. Sparks delivered a short address.

Tomorrow's program will consist of a band concert in the morning, music by a children's chorus of 270 voices at 2:45 p. m., a public wedding at 3 p. m., free attractions at 4:30 and 8 p. m. and a band concert at night.

The Arlington band has been engaged to play tomorrow, Thursday and Friday, so that there will be two bands to furnish music all the rest of the week. The children's chorus tomorrow afternoon promises to be an unusual attraction. The chorus has been trained for the appearance by Charles Ernest Parke, supervisor of music in the public schools. The children will sing a medley of national airs that will be especially appropriate to the occasion.

School children have a part in every day's program. On Thursday several numbers will be sung on the main platform at 11:30 a. m. by a chorus from Washington school. On Friday morning at 10:30 a

chorus from the Catholic school will give a program.

Interest is increasing every hour in the Centennial Queen contest continues. At the twelve o'clock count today Miss Dorothy Mulno was again in the lead with 8896 votes, after having been forced out of the lead at the 9 o'clock count last night by Miss Leah Oneal, who had only 7818 at noon today. The race seems to lie between them, unless two or three of the next highest contestants suddenly bring in a large number of votes which have been held back.

The vote on the ten highest contestants at 12 o'clock today will be found on page 4. A mistake was made yesterday in stating all but the ten highest contestants would be dropped from the race. Instead, it should have been that only the votes on the ten highest would be printed each day. All are in the race, except the ten lowest which were dropped from the race. Instead it should have been that only the votes on the ten highest would be printed each day. All are in the race, except the ten lowest which were dropped on Monday. The contest closes Wednesday night at 11 o'clock and the final result will be announced Thursday. Three counts are made each day, one at noon, at 5 and 9 p. m.

It was announced today that a couple had been secured for the public wedding at Main and Second streets Wednesday afternoon at three o'clock. Their names will not be announced until they are introduced just before the ceremony. In addition to prizes already announced, Pearl Wamsley has announced that he will give the bride and bridegroom supper and free lodging Wednesday night.

This morning's program opened with an Indiana song by the glee club, followed by a prayer by the Rev. W. M. Whitsitt of St. Paul's M. E. church. The glee club then sang "Carmenia" and Judge Sparks spoke. The program closed with a state song composed by Mr. Meissner, who was formerly supervisor of music in the Connessville schools, but who is now in charge of the music at the Wisconsin state normal school at Oskosh.

"We want you all to see the display of the relics in the windows," said A. L. Gary in introducing Judge Sparks, "but we have one here which antedates all of them. He has been with us many years and we hope to have him many more."

"In spite of my extreme old age," said Judge Sparks, "I am here to make a short address; I am not here for the purpose of freezing you."

Judge Sparks said the celebration was for the purpose of commemorating the birth of the state, but that it was a little premature because Indiana did not come into being until December 11, 1816.

"What are we here for?" asked Judge Sparks. "We are here for the purpose of taking an inventory of the past and see what we have accomplished. Indiana has taken the front ranks among all the states. There is a good deal of fun poked at us, but nevertheless, we stand the peer of all and are looked upon as the leading state of the nation. We have been a leader in every phase of life, in every activity. We Hoosiers have been leading men in every walk of life. They have poked fun at us for producing so many books, but it is a fact that Indianamen have written more than men of any state."

Over 1,100 Old Relics In Show Windows Attracting Throngs

The old relics, which have been gathered from the far corners of Rush county and which are being displayed in the store windows this week, attract daily a large throng of people. It is doubtful if anything Rushville ever attempted ever aroused such widespread interest. Over eleven hundred relics are on display. A partial list of the old relics which are to be found in the windows follows:

In the Poe Jewelry Store were displayed: a map of Indiana made in 1833 showing no railroads; owned by William Poe; a clock 91 years old which is still running; a horn 120 years old owned by Ed Benedict; a grafting knife 75 years old owned by Ed Benedict; a violin 110 years old loaned by J. W. Ayres, which was once owned in the Brown family; a scenic clock 60 years old from Switzerland, property of William Poe; a New York Herald published in 1865 giving the account of the death of Lincoln; a sun dial, 102 years old, the first time-keeper in Rushville; ear rings, brooch, and bracelets owned by Mrs. Laura Carmichael; ear rings 90 years old owned by Mrs. Robert Cox; an original Watnury watch; a watch 107 years old owned by Harvey Allen, made by a firm which still exists; a spoon made from silver knee buckles, owned by Mrs. Fred Boxley; a pair of spectacles 97 years old used by Thomas Poe; a number of early coins loaned by George Urbach; an English watch owned by Squire Poe; a medical book published in 1653, owned by Dr. Will Coleman; a tea pot 125 years old loaned by Charles

Bateman; an old pitcher loaned by Mrs. James Nixon and Indian pipe presented to the late John Moses in 1871.

At the Kennard Jewelry Store were shown: an autograph album kept by Miss Amanda Gregg 75 years ago; a silver candle-tick 125 years old owned by the great grandmother of May Allen; glasses worn by Judge John Gregg 100 years ago, loaned by Miss Sue Gregg; a china basket and two lamps 100 years old, loaned by Mrs. George Wingerter; a gun 75 years old; the oldest paper money made in this country, owned by Miss Sue Gregg; a Roman coin 1600 years old, given by Mrs. Douglas Morris; a pearl handled knife, the wedding present of Miss Matilda Hamilton in 1816, loaned by Miss Sue Gregg; a coin 1800 years old, an heirloom in the Ben Craig family; ear rings worn by Miss Caroline Sutherland at her wedding in 1815; cuff buttons and pins worn by Eliza Kennard in 1816; a snuff box loaned by Mrs. A. L. Gary; a silver pitcher loaned by Mrs. Jane Kincaid that has been handed down for 4 generations; ear rings 75 years old, owned by Mrs. Douglas Morris; a watch charm 54 years old, carved from a beef bone by Jesse Spann when in the Union army; spectacles of the great-great grandfather of Mr. Innis near Milroy; a cap and sancer 100 years old, owned by the great grandmother of Mrs. Mary Bohannon and one 70 years old used by the mother of Mrs. Bohannon; and 2 watches 125 years old.

SERUM PLANT BEING ERECTED

Material is Being Placed on Ground and Active Work is Started on New Structure

WILL GO UP ON 70-ACRE TRACT

Will be in Charge of Competent Superintendent and Federal Inspector Will be Here

Active work has been started on the plant of the National Serum company which is to be erected on a tract of seventy acres just south of Jersey City.

The contract has been let and material is now being placed on the ground. An eight-inch well is being dug. It is stated that few drillers in this locality can drill a well of this size and for that reason some trouble was experienced in finding a contractor. J. D. Overlees of Arlington has the contract.

The company recently took up the lease and recorded the deed to the seventy acres of land, paying \$200 an acre for it.

The plant will be under U. S. government supervision which means that an inspector employed and paid by the U. S. government will be located at the plant all the time, and no serum will be allowed to leave the plant until after its purity and potency shall have been thoroughly established.

Doubtless few persons have realized the immense value of the National Serum company to Rush county farmers and other hog raisers, in this vicinity but those who have become interested are already boosters and the success of the institution is assured at its very inception.

One of the best qualified serum men in the United States has been employed as superintendent. He will

TROUBLE WITH TRANSFERING

In Just Two Exceptions Registration is Lower Than Two Years Ago, Records Show

The registration of yesterday was termed satisfactory by party leaders today. According to reports, a full registration resulted and in only one or two precincts did any of the voters fail to register. For Riggs, republican county chairman, expressed himself as being well satisfied with the work of the day and Voorhees Cavitt, democratic county chairman stated, that his party was pleased with the returns.

The day passed off quietly, the only difficulty resulting in several of the registration boards not understanding how to record the names on the book of 1914 onto the book kept for yesterday's registration. As a general rule the boards started numbering with the registration of yesterday and then transferred the names appearing on the old book into the new. In this way every voter was given a new number.

In one precinct this was not followed. All of the names from the old book were transferred, including those who have moved from the precinct and those who have died. The names of those not living in the precinct were not necessary to this year's registration book. The matter however, was very generally understood and this one precinct was the exception rather than the rule.

The registration showed a great increase over the registration of 1914. Up until noon today sixteen

Ebbetts Field, Brooklyn, Oct. 10—The weather was cold and cloudy at the start of the third game of the world's series games here today. Hi Myers, hero of yesterday's game was given a great hand as he came on the field. It looks like a capacity crowd, which means about 30,000 persons.

FIRST INNING
Boston—Hooper flied out to Wheat. Janvrin out, fouling to Daubert. Shorten singled to center. Hobby singled to right and Shorten was thrown out taking third. Stengle to Mowrey. No runs, two hits, no errors.

Brooklyn—Myers was hit by a pitched ball. Daubert safe at first and Myers at second on a bunt in front of the plate. Daubert, credited with a hit. Stengle sacrificed, Mays to Hobby. Both runners advanced. Wheat was walked purposely, filling the bases. Myers out at plate, Hobby to Thomas on Cutshaw's grounder. Mowrey fanned. No runs, one hit, no errors.

SECOND INNING
Boston—Lewis flied to Myers. Gardner popped to Cutshaw. Scott flied to Wheat. No runs, no hits, no errors.
Brooklyn—Olson out, Scott to Hobby. Miller fanned. Coombs out, Scott to Hobby. No runs, no hits, no errors.

THIRD INNING
Boston—Thomas popped to Cutshaw. Mays fanned. Hooper singled to center. Hooper out stealing, Miller to Cutshaw. No runs, one hit, no errors.
Brooklyn—Myers out, Scott to Hobby. Daubert singled to right.

Stengle singled to left, Daubert staying on second. Wheat flied out to Lewis. Cutshaw singled to right, scoring Daubert. Stengle going to third and Cutshaw to second. Mowrey out, Scott to Hobby. One run, three hits.

FOURTH INNING
Boston—Janvrin flied to Stengle. Shorten singled to left and was out, stealing. Miller to Olson. Hobby flied to Myers. No runs, one hit, no errors.

Brooklyn—Olson beat out a bunt and took second on Gardner's poor throw. Gardner was charged with an error and Olson given a hit. Miller sacrificed, Mays to Janvrin. Coombs singled to right, scoring Olson. Myers sacrificed, Mays to Hobby. Coombs taking second. Daubert out, Scott to Hobby. One run, two hits, one error.

FIFTH INNING
Boston—Lewis flied to Wheat. Gardner popped to Mowrey. Scott out, Coombs to Daubert. No runs, no hits, no errors.

Brooklyn—Stengle fouled to Gardner. Wheat walked for the second time. Cutshaw out, Mays to Hobby. Wheat taking second. Mowrey walked. Olson tripped to left, scoring Wheat and Mowrey. Miller out, Scott to Hobby. Two runs, one hit, no errors.

SIXTH INNING
Boston—Thomas out, Olson to Daubert. Henricksen batted for Mays. He walked. Hooper tripped to left scoring Henricksen. Janvrin popped to Cutshaw. Shorten singled to center, scoring Hooper. Hobby out, Coombs to Daubert.

PEACE REPORTS
ALL UNFOUNDED

Ambassador Gerard, Who Arrived
Today, Carries no Message to
Wilson From Kaiser.

TRIP SOLELY FOR VACATION

German Ambassador Not Here to
Discuss U-Boat Menace Either,
It is Positively Stated.

By ROBERT BENDER.
(U. P. Staff Correspondent.)

Long Branch, N. J., Oct. 10.—Ambassador Gerard who arrived in New York this morning carries no message from the Kaiser to President Wilson suggesting American intercession on behalf of peace.

Nor does he come for the special purpose of discussing with the president a reported revival of the submarine menace. It may be stated positively that Gerard's trip to this country is made entirely to give the American Ambassador a vacation.

There's no doubt that the president will want to know all developments regarding possibility of peace in the near future and regarding a preparation which may be under way in Germany for a renewal of the U-boat activity.

No date has been set for his seeing the president. The president leaves tomorrow evening for Indianapolis so it is likely that Gerard's visit with him will be delayed until the first of next week.

REFUSES INTERVIEWERS

(By United Press.)

New York, N. Y., Oct. 10.—Returning from Berlin aboard the liner Frederick VIII, James W. Gerard today refused to answer any questions relating to his visit in America at this time saying that the simplest question might involve him.

He stated that he did not know when he would return to Germany but that he would surely go back.

A delegation of New York city officials went down the bay to meet the ambassador.

Upon landing the party went to the city hall where the ambassador was formally welcomed.

his preliminary remarks. Mr. and Mrs. Blackledge have been making their home in Indianapolis for a few years but have returned to their old home northeast of the city, now occupied by their son Alfred Blackledge and family.

George W. Legg of Washington township was eighty-seven years old today. The occasion brought him many kind remembrances from relatives and friends. Although in ill health during the last two years and confined to his room most of the present year, he was able to converse with those who visited him, most entertainingly and gave all a glad welcome. Mr. Legg's entire life has been spent on the farm where he lives and he is loved and most highly esteemed by all.

HUGHES IS STILL FAR AHEAD

In another installment of votes published in the Cincinnati Enquirer today, Harry S. New, a republican candidate, leads in the senatorial race with 75 votes and Watson is second with 67. Senator Kern, New's opponent, received 64 votes and Taggart, the other democratic candidate, received 47. On the totals New is still leading with 1528 and Watson is just 110 behind. Kern's total vote is 1217 and Taggart's an even 1000. Watson led the field in the vote taken at Greensburg.

The installment today was from the Republican company here, several business houses in Greensburg and the Nordyke and Marmon company in Indianapolis. Nine votes were cast in the Republican office for Watson and seven for New. Hughes received nine to Wilson's none and Goodrich was given eight to Adair's one.

In the totals in Indiana, Hughes is leading with 2007 and Wilson has 1513. Goodrich has received a total of 1869 and Adair 1341.

Amusements

The Gem offers the final episode of "Peg O' The Ring" for the first picture tonight. This one is entitled "Retribution." In addition to this picture the three reel drama "The Committee on Credentials" will be shown. Tomorrow, matinee and night the feature picture "A Dead Yesterday" and two other good pictures will be shown.

The Mystic offers the next chapter of the serial story "Fantomas" for the program tonight. The opening number of the picture shown last week attracted favorable comment and the picture promises to hold the interest. The story is full of mystery and this adds to the dramatic interest.

The Princess offers the five act feature "The Habit of Happiness" for the program tonight. Douglas Fairbanks, the well known dramatic star is featured. It is said to be a vivid startling drama with wonderful scenic effects. Tomorrow, matinee and night William Fox presents the five act feature "Slander." Bertha Kalich is featured.

(By United Press.)

Newport, R. I., Oct. 10.—A line of United States destroyers strung out five miles apart sweep the Atlantic off Nantucket today in a final effort to find trace of the crew of the steamer Kingston, reported to have been sunk. Up to a late hour this morning they were unsuccessful in their attempt.

The report that two survivors had been found yesterday was caused by an error in the radio dispatch.

"And again, what has Rush county to be proud of? She is one of the oldest children of the state. She lacks but five years of being the oldest. Just ninety-five years ago the first court was held five miles east of Rushville."

Judge Sparks praised the public school system as the greatest factor in raising the standard of citizenship and eloquently praised the citizenship of Rushville for what it is and for what it stands. He had no praise for the chronic kickers. Judge Sparks said if they did not like Rushville they should migrate. He urged that everyone see the display of old relics so that we the younger generation could realize what our forefathers had to overcome to make the present civilization possible.

Look and Feel Clean, Sweet and Fresh Every Day

Drink a glass of real hot water
before breakfast to wash
out poisons.

Life is not merely to live, but to live well, eat well, digest well, work well, sleep well, look well. What a glorious condition to attain, and yet how very easy it is if one will only adopt the morning inside bath.

Folks who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatism; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store which will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.

Deafness Cannot Be Cured
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this natural opening restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circular, free.

Perkins on Business.

Geo. W. Perkins, than whom no one is more competent to speak of business conditions, has written an open letter to Joseph P. Tammany, secretary to the President, asking that Mr. Wilson point to a single specific instance wherein the Wilson administration has helped the business of the country. Mr. Perkins points to the "Seven Sisters" legislation which Mr. Wilson caused to be enacted by the New Jersey Legislature and widely advertised as solving the entire trust problem and asserts that there has never been any attempt to enforce them and that they have accomplished nothing. He points out that the Federal Trade Commission has no power to modify the Sherman Law and that he has yet to learn of an instance where that commission has been of service to business. He declares that by withdrawing from the Chinese loan arrangement, President Wilson shut the United States out of its natural opportunity to extend its trade in the Orient, and by its attitude toward those Americans who in the past have gone into Mexico, invested their money and risked their lives, the Wilson administration has done everything possible to discour-

Many Would be Hosts.

The determination of the administration to transfer the Mexican Conference from New London to Atlantic City, where there are so many delightful diversions and where time may be filled with a maximum of enjoyment, has led to keen competition from other cities which would like the distinction of entertaining this unique and innocuous conference and even more to be the recipient of the funds which the United States is expending so lavishly for the entertainment of the Carranza delegates and their suites. There is prospect that as the winter advances the leading Southern resorts will become aspirants for a share of this prosperity, and lively competition between the Georgia, Florida, Alabama and Louisiana resorts is expected. Southern Senators are expected to take part in the competition and to exert the same powerful influence which has long enabled them to effect the maintenance of obsolete Southern navy yards, and the expenditure of vast sums of refurbish those which the best military and naval judgment has decreed should be abandoned. The only menace to this program is the somewhat hasty and choleric temper of Carranza.

The rhetorical Mr. Baker who now presides over the destinies of the War Department was one of the spellbinders on the government payroll who were sent down into Maine to fire the Democratic heart at public expense. In one of his speeches he uttered this gem: "This is a time when, having pressed forward nobly on a high and difficult course, the finish should be left to those who have demonstrated their ability by their work already done." If Mr. Baker's argument had found lodgment in the President's mind, where would Mr. Baker be now? He certainly would not be in the Cabinet—for Mr. Garrison, who had pressed forward nobly on the high and difficult course of trying to convert the President to the cause of preparedness, would have been left to finish the work for which he had so ably demonstrated his capacity.

Don't forget that Christmas days are again drawing near. Don't forget that merchants in this town have the goods that you want to buy for those Christmas days. Don't forget that every dollar you spend with a local merchant remains in local circulation and enriches the community just that much. Don't forget that every dollar you spend outside of this town remains outside and decreases the money in local circulation just that much. Don't forget that an advertisement of a local merchant in this paper is an indication that the merchant is prepared to "make good" or he would not resort to publicity in soliciting your trade. Don't forget the good advertiser is generally a "live wire," and that live wires are better than dead ones.

It is quite true that a man is a fool for running after his own hat on a windy day when there are plenty of other people who will do it for him.

They sell quinine by the grain, and when are they going to begin measuring wheat the same way?

You might as well not have any

religion at all as a religion you embrace as an insurance against fire.

There seems no end to the heights to which women attain. One is reported to have been in a Zeppelin that raided over London.

If all the knocking were done on the outside of the door, how nice it would be.

A wise head often contains a deal of foolishness.

SOLILOQUY AT SHADOW LAWN

Where are they gone, the old familiar faces?

I had a friend—McCombs, but he left me.

Left me slowly but surely, when I did not need him.

All, all are gone, the old familiar faces!

Once I had Bryan; he was my friend.

In my hours of struggling in that great convention,

But now he's gone. Left me with "God bless you!"

Upon his lips. Gone, are the old familiar faces.

I had a friend; a truer friend had no man.

Like an ingrate, I wounded my friend acutely.

And he, good Colonel Harvey, left me.

Left me.

To muse on the old familiar faces!

At my right hand sat my friend

Who was the strong arm of my Administration—

Garrison, upright and honest—but he too has left me;

Left me, when I deceived him—gone are the old familiar faces!

At Shadow Lawn, where new friends

swarm around me,

Earth seems a desert I am bound to traverse,

Seeking to find the friends who've left me;

But all, all are gone—the old familiar faces!

Editorial Comments

If the Democratic leader who advocates putting dyes on the free list to encourage the industry were a surgeon his method of setting a broken limb would be to amputate the patient's leg at the neck.

Optimism is what makes the Democratic party, which has fooled some of the people only three times in fifty years and has never yet fooled all of the people some of the time, think that it can now fool all of the people all of the time.

President Wilson hasn't been able to figure out yet whether he is going to be on the stump or up one.

If the paper shortage becomes much more serious the first thing we know the machinery of the State Department will be coming to an abrupt stop.

Then, too, according to the Democratic campaign book that among the more important enactments of the Wilson Administration may be mentioned Magna Charta and the Ten Commandments.

Secretary Redfield converses glibly in terms of billions until it comes time to make a campaign contribution, when it is disclosed that all he really knows about mathematics is \$100.

Everything has gone up under Wilson except the price of dead Americans.

Senator Jimham Lewis has purchased a new volume of "Unfamiliar Quotations" and expects to be able any day now to give us the classical derivation of "pitiless publicity" and "strict accountability" in the original Babylonian.

Add famous sayings of history: "I will surrender on this line if it takes all summer!"

The Democratic revenue bill, as completed, is regarded as so perfect that the chances are that the taxpayers of New York, Massachusetts and Illinois will be able to build 8,000 more miles of good roads in Alabama next year.

Mr. Hughes is talking to the women of the land in the homely language of the fireside and we expect to witness an impressive rallying of the sex on the first ironing day after the first wash day in November.

NOTICE OF FINAL SETTLEMENT OF ESTATE.

Notice is hereby given to the creditors, heirs and legatees of Emerson Miller, deceased, to appear in the Rush Circuit Court, held at Rushville, Indiana, on the 23d day of October, 1916, and show cause, if any, why Final Settlement Accounts with the estate of said decedent should not be approved, and said heirs are notified to then and there make proof of heirship, and receive their distributive shares. HOW TO SELL THINGS THAT ARE "FOR SALE"

Write your "For Sale" ad SIMPLY stating every detail about the article that you would want an ad to give if you were anxious to buy something of the kind yourself. Give a little thought to the "selling points" about the article, and put THEM into your ad. Then run the ad MORE THAN ONCE, if that is necessary. It may or may not be.

ESTATE HOT STORM The Stove with a Little Furnace In It

Competent authorities tell us that in the ordinary heating stove, 50 to 75 per cent of all heat generated from the coal goes up the chimney—a dead waste of heat and of money. For years designers have been trying to lessen this waste and the result of their labors is shown in the ESTATE HOT STORM—not a stove in the common sense of the word, but a COMBINATION STOVE and FURNACE—two heating systems in one. Costs very little more than the ordinary stove to buy, no more to install and much less to operate than the ordinary furnace.

Come and see how the "Little Furnace" blocks up rushing heat and sends it pouring out the top INTO the room—not up the chimney. See the JOINTLESS LEG BOTTOM and BASE—as good a fire keeper in twenty years as it is today. The low bottom, from two to three inches closer to the floor than any other make. Absolute cleanliness, everything in the fuel consumed except the rock and slate in the coal. The indestructible HOT BLAST system—no rings to burn out or fill with ashes.

We can conscientiously guarantee to produce more heat for less money than any soft coal heater in the world.

WORTH KNOWING

Women are liable to ailments which cause constant ill-health and on which they may consult doctors without much relief. It is well worth knowing that they can get at the nearest drug-store a simple medicine, made of roots and herbs, which is just what they need to recover health. That medicine is Lydia E. Pinkham's Vegetable Compound. —(Adv.)

SHOWS GROWTH OF HIS CHURCH

The Rev. W. F. Richardson Compares Development of Christian Faith With United States

ALL CREEDS ARE INVITED

He Urges Continuance of the Policy to Keep Local Congregation The Unit

(By United Press.)
Des Moines, Ia., Oct. 10.—Church men and women of all creeds were invited to attend general conventions of the Church of Christ, thus making of these conventions truly world meetings for propagating Christian thought, said Rev. W. F. Richardson, of Kansas City, president of the convention here, in his address last night.

The Rev. Mr. Richardson compared phase by phase, growth of the Christian church and of the United States, showing them to be parallel. America and the church both had their periods of discovery, revolution, and construction. Both now are in the phase of conservation.

The Rev. Mr. Richardson urged continuance of the church policy of making the local church the most important unit, and of fighting all efforts toward ecclesiastical organization.

"In inviting our sister churches to join with us in such a convention as this," he said, "we are returning to the primitive ideal of the fathers, as expressed by the first missionary organization which they effected."

"The world is asking, 'What is your aim—and how are you embodying it in your community life?' This challenge we must meet or we will harden into a sect, and be relegated to the limbo to which all sectarianism is ultimately doomed."

"Our forces are but partially employed at present. Of our 9415 congregations in the United States and Canada, only 3007 gave last year to our foreign Christian missionary society, 2,173 to our American Christian missionary society, and but 1190 to the board of church extension."

"In coming out of the Babylon of sectarianism it is not possible that we have brought somewhat of its spirit with us. We have been over-eager for growth in numbers, anxious to make a showing in the diversity and rapid increase of our activities. We need to think if spiritual values rather than merely arithmetical. Biologists will tell us that a three legged chicken is not more chicken, but less, than one with two legs. The former is more legs but less chicken. A freak is not a forward step in any development of life."

ASKS CHANCE FOR FORMER PRISONERS

Demand Made For Fair Treatment For Men Released Before American Prison Association.

DELEGATES ARE ALL AGREED

(By United Press.)
Buffalo, N. Y., Oct. 10.—Practically all of the delegates to the Congress of the American Prison Association, in session here, today concurred with W. G. MacLaren, Superintendent of the Oregon Prisoners, Aid Society, who said prisoners should be closely scrutinized prior to release so that mental defects may be taken care of. He pointed out the defective released speedily go back to crime.
"We should take care of the defectives," said MacLaren, "and should demand that the police and peace officers give other released prisoners a chance to get along. They are all too ready now to hound them back to prison."
Those who spoke at the meeting this morning were: Rev. D. Miller of Western Penitentiary, Allegheny, Pa.; Rev. S. J. Dowling, State's Prison, Wampum, Wis.; and Rev. Robert Walker, of the Massachusetts State Reformatory.

SERUM PLANT BEING ERECTED

come here backed by ten years of experience.

Up to the time the plant is completed, the company has arranged with another company to take care of farmers and other hog raisers who are interested in the proposition, by supplying them with serum.

It was decided to locate the National Serum company here because Rush county is not only the largest hog raising county in the state but because there is only one other county in the Union which raises as many hogs as this county.

The tract of land on which the buildings will be erected consists of seventy acres. There will be a main building, a power house and three large hog houses with pens adjoining on each side. All of the buildings will be of reinforced concrete, steel and plated glass and will contain all of the improvements that will be found in any of the most thoroughly equipped serum plant. The company says the plant will be second to none in the United States. What land is not required for the building will be used for the hogs to run on. From one thousand to three thousand hogs will be kept on hand all the time.

SUIT FOR \$10,000 DISMISSED TODAY

Case of Guy Shutar Against L. E. & W. is Taken off Docket by Plaintiff and Costs Paid

GEO. GRAHAM GETS JUDGMENT

The damage suit of Guy Shutar against the Lake Erie and Western railway, in which \$10,000 was demanded, was dismissed today and the costs paid. The plaintiff dismissed the suit and paid the costs. It was alleged in the complaint that Shutar was hurt when a cut of cars bumped into the passenger in which he was riding, causing him to be thrown forward on his face.

Judgment for \$346.80 was given in favor of George Graham against J. E. Hardin. The suit was on a note in which \$350 was demanded. A. L. Gary withdrew his appearance for Mr. Hardin and permitted the judgment to be taken by default.

COTERIE MEETING

At the called meeting of the Coterie Club held with Mrs. D. D. Vantodol yesterday afternoon a committee was appointed to make arrangements for the program for this year. The committee was composed of Mrs. Helen Pierson, Mrs. Raymond Hargrove, and Mrs. Bert Trubine. Several other business matters relative to the year's meetings were decided upon. Dainty refreshments were served by the hostess. The next meeting of the club will be with Mrs. Howard Barrett.

SURPRISE AT NEW HOME

Mr. and Mrs. Jake Parrish have recently moved into their new home near their former home northeast of the city. This was the cause of the surprise party given on them last evening when a number of their friends came in upon them bringing their suppers. An elegant pitcher in supper was served and followed by a pleasant evening together, which was enjoyed by Mr. and Mrs. Hubert Innis and daughter, the Rev and Mrs. C. M. Yocum and son, Miss Alice and Miss Leonora Norris, Mrs. Ella Worsham and daughter, Ellen, and Mr. and Mrs. Cary Jackson.

JARRELL-MYERS

The Christian paragonage at Milroy was the scene for a happy event when Miss Dora Helen Fitz Jarrell, daughter of Mr. and Mrs. Frank Jarrell of Richland, was joined in marriage to William Myers, son of Mrs. Bessie Myers. The Rev. Harry Phillippi performed the ceremony in the presence of a few friends and relatives. The bride was lovely in a tailored suit of navy blue with accessories to match. Her hat was black trimmed in turquoise blue. She is a very popular young lady in that community. Mr. and Mrs. Myers are making their home on a farm north of Milroy. Those present at the wedding were Mr. and Mrs. Smith, Mr. and Mrs. Kelly, Mr. and Mrs. Jarrell, Mrs. Root, Mrs. Myers, Miss Hazel Ryckman and the Rev. and Mrs. Phillippi.

DISCUSSION OF DRAMA

The programs being given at the meetings of the Monday Circle on different phases of the drama are proving to be very interesting. Yesterday at the meeting of the Circle held at the home of Mrs. Jess Pugh, Mrs. Robert Innis discussed in a paper "The Technique of the Drama." Mrs. Innis in a very clear way brought out the requirements of every well organized drama and showed the way in which it should be built up.

"The Relation of the Drama to Literature" was the subject of the paper read by Mrs. E. B. Thomas in which she proved that literary artists were not always successful dramatists; and that even writers of good plays did not always produce plays that could be successful.

Facts Regarding Haviland And All Imported China

China is absolutely impossible to obtain from England, France or Germany, and jobbers are asking unreasonable prices for the small stocks they still have. Last year, and even the year before we purchased much more French-English and German China at the old price than we needed for those years. Therefore, we have TODAY a fair stock of China at the same prices as two years ago. At the same time we do not consider the stock adequate for the Christmas demands.

COST OF LIVING STILL GOING UP

During Last Four Years Price of 15 Articles of Food Have Increased One-Seventh

CAMPAIGN PLEDGE RECALLED

Family Which Paid \$300 a Year For These Articles Now Has to Pay \$342 Annually

Washington, Oct. 7.—Under the Wilson administration and the Democratic tariff law the cost to the people of the United States, for 15 articles of food alone has increased in the last four years approximately one-seventh.

An American family, under the Taft administration, that spent \$300 per year for these foods, is now paying for the same articles, under the Wilson administration, \$342 annually.

Figuring five persons to a family this is an increase of \$8.40 for every man, woman and child in the United States, or the stupendous total of more than \$800,000,000.

Under the Underwood tariff law and the Wilson administration the high cost of living has increased by leaps and bounds.

Since June, 1912, up to June, 1916, according to the latest available Government statistics there has been an increase of 14 per cent. in most of the staple foods.

The Democrats have not kept their promise, made in the Baltimore platform, to reduce the high cost of living. On the contrary every family in the United States is paying higher prices for the principal articles of food, 14 per cent higher than it cost them under the Taft administration and a Republican tariff law.

In the Baltimore platform, on which Wilson was elected President, is the following plank:

"The high cost of living is a serious problem in every American home. The Republican party, in its platform, attempts to escape from responsibility for present conditions by denying that they are due to a protective tariff. We take issue with them on this subject, and charge that excessive prices result in a large measure from high tariff laws enacted and maintained by the Republican party and from such trusts and commercial conspiracies fostered and encouraged by such laws, and we assert that no substantial relief can be secured for the people without import duties on the necessities of life are materially reduced and these criminal conspiracies broken up."

A 14 per cent. increase in the cost of the principal food stuffs is the way the Democrats and the Wilson administration have kept this pledge to the people.

The following table, prepared by the Bureau of Labor statistics of the Department of Labor, shows relative prices of 15 of the principal articles of food in June of each year, 1912 to 1916, included. To form a basis for the table that price

SAGE TEA DANDY TO DARKEN HAIR

It's Grandmother's Recipe to Bring Back Color and Lustre to Hair.

You can turn gray, faded hair beautifully dark and lustrous almost overnight if you'll get a 50-cent bottle of "Wyeth's Sage and Sulphur Compound" at any drug store. Millions of bottles of this old famous Sage Tea Recipe, improved by the addition of other ingredients, are sold annually, says a well-known druggist here, because it darkens the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray or becoming faded have a surprise awaiting them, because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful.

This is the age of youth. Gray-haired, unattractive folks aren't wanted around, so get busy with Wyeth's Sage and Sulphur Compound to-night and you'll be delighted with your dark, handsome hair and your youthful appearance within a few days.

This preparation is a toilet requisite and is not intended for the cure, mitigation or prevention of disease.

for June, 1912, is placed at 100, and the price for each succeeding year is figured accordingly by the Bureau statisticians.

A careful calculation of this table shows that with 100 as a basis for 1912, the 1916 per centage is 114, or an increase of 14 per cent in the cost of the combined food stuffs since the declaration of the Democratic platform. Following is the government table showing the increased cost of living under Democratic rule:

Month	Sirloin	Round	Rib	Pork
Year	Steak	Steak	Roast	Chops
June 1912	100	100	100	100
June 1913	109	109	103	110
June 1914	110	114	105	114
June 1915	110	112	104	109
June 1916	120	126	115	121

	Smoked	Ham	Lard	Eggs	Butter
June 1912	100	100	100	100	100
June 1913	112	127	105	104	104
June 1914	110	104	106	100	100
June 1915	106	102	101	103	103
June 1916	120	116	113	109	109

Increases in the cost of these principal articles of food could not have been affected by the European war prior to June, 1914, and as food products imported from Canada since that time have been the largest in our history it is evident to all that the war has had no influence whatever in causing the cost of living to increase 14 per cent under the Wilson administration.

Democratic claims that food stuffs on the free list would greatly reduced their cost is a delusion and a sham.

On September 20th the Bureau of Labor Statistics issued a report called "Wholesale Prices in 1915." In this report it is stated:

"Wholesale prices of commodities average considerably higher in 1915 than in the preceding year . . . Prices in the cloths and . . . clothing group showed a steady advance during the entire year, the increase from January to December being more than 11 per cent . . . Of 346 commodities for which the Bureau collected wholesale prices for 1914 and 1915, 174 commodities showed an increase between these two years . . . Articles showing an increase of more than 20 per cent were hide, rye, wheat, wool. The group of farm products showed a two per cent increase in the average for 1915 over that for 1914.

TAKES TRIP TO FLYING SCHOOL

United Press Correspondent Visits British School of Aviation and Inspects Place.

LESSON FOR UNITED STATES

Many of the Machines Come From American But Brains Are Supplied by France.

BY WILBUR S. FORREST.
(U. P. Staff Correspondent.)

British Central Flying School, Sept. 5.—(By Mail)—Nestled down amid creases of land on the edge of a great plain was discovered today the British eagle's eyrie.

By courtesy of the British Foreign Office, the United Press correspondent was able to spend the day among a massive "nest" of buildings where young eaglets learn to combat the double eagle of Germany. It takes about eight weeks for one of these young Britishers to develop from an unsteady yellow fuzzy creature into a defiant grey bird of prey. Usually two months' tuition in and around these flying school buildings sends a young flying bird direct to the actual test of war.

A group of large hangars surrounding a concrete fortlike building—all constructed since the beginning of the war—loomed up suddenly over a hill as an international party of journalists motored onto the plain. The scene might have come out of the movies from Arizona or New Mexico. The buildings might have been one of those newly constructed movie towns.

American's infantile flying service could learn a lot at the British flying college. Much of the equipment which made the British "nest" came from the United States but the knowledge—the more important part—came from Northern France. "Professors" of flying, who summon their classes at fixed hours of the day, didn't learn from books. They dragged their knowledge from the school of actual experience since August, 1914.

A Providence, R. I. firm could furnish any American eagle "nest" with big lathes such as were seen today in one of the big buildings where air students are taught some of the technical points of learning to fly. There were aeroplane engines, blocked up for demonstration, which came to England from a well known engine factory in Connecticut. Another building housed sewing machines for stitching fabric for aeroplane wings. These sewers bore a name known in every American household. Neat little guns, peering over blunt noses of fast monoplanes, spat their first test bullet on American soil. Somewhere else in the camp, the

wireless was buzzing away. The slow dots and dashes were distinctly heard from a double headpiece which the correspondent adjusted to his ears.

"What are they saying?" was asked.

"That's the German wireless at Nauen sending its daily wheeze to Sayville, L. I., and elsewhere," replied a student wireless operator.

There are other American things in the "eagle's nest."

When young eagles soar to great heights and aim their dummy practice bombs at slowly moving objects on the ground these objects are often buglike harvesting machines reaping yellow wheat in fields which skirt the edge of the plain. The harvesters are never bombed but they make excellent "aiming" and represent what at the front would probably be an enemy gun.

ABLE TO WORK AFTER 5 YEARS

A. J. Wyrick Tells How Tanlac Quickly Banished His Troubles

Kokomo, Ind. Oct. 9.—"Tanlac certainly has done more for me than anything else. Since taking the medicine I'm able to attend to my stock after being unable to work for five years. I heartily recommend Tanlac."

"This was the tribute paid the Master Medicine a few days ago by A. J. Wyrick, a prominent farmer, who lives on rural route No. 7, Kokomo.

"I had rheumatism," Mr. Wyrick continued. "I couldn't turn over in bed at night without holding my head with both my hands, the rheumatic pains were so severe.

"My condition is greatly improved since I have taken two bottles of Tanlac. The rheumatic pains do not bother me any more now and I'm back at work again."

Tanlac, the Master Medicine, is especially beneficial for stomach, liver and kidney trouble, catarrhal complaints, rheumatism, and the like and is a fine blood purifier. Tanlac is now sold exclusively in Rushville at F. E. Wolcott's in Arlington at Mrs. L. T. Davis's, in Carthage at J. H. McCarthy & Son's, and in Milroy at Barton and Shepard's.—(Adv.)

MORE MONEY IS SPENT ON ROADS

Statistics Prepared by Government Prove This is History of Last 12 Years.

11.3 PER CENT ARE IMPROVED

Mileage of Surface Highways is Increasing at the Rate 16,000 Miles a Year.

Washington, Oct. 10.—Rapid increase in total expenditures for roads and bridges, growth of building and maintenance activities under State supervision, and a sharp decrease in the proportion of contributions in the form of statute labor mark the development of highway work in the United States during the past 12 yrs. These facts are brought out by statistics for the calendar year 1915 recently compiled by the Office of Public Roads and Rural Engineering of the U. S. Department of Agriculture.

The total length of public roads in the United States outside the limits of incorporated towns and cities was about 2,452,000 miles on January 1, 1916. Of this, about 277,000 miles, or 11.3 per cent, were improved with some form of surfacing. The mileage of surfaced roads has been increasing at the rate of about 16,000 miles a year, and in 1915 approximately one-half of this increase was made under the supervision of State highway departments. In addition these departments supervised the maintenance of nearly 52,000 miles of main and trunk line roads.

The increase in expenditures for road and bridge work in the United States has been from approximately \$80,000,000 per year in 1904 to about \$282,000,000 in 1915, an increase of more than 250 per cent. The expenditure of State funds during this same period increased from about \$2,550,000 to more than \$53,000,000. In addition, more than \$27,000,000 of local funds was spent under State supervision in 1915, bringing the total road and bridge expenditures managed by the States to \$80,514,699. This amount is greater than the total expenditures for roads and bridges from all sources in 1904.

The growth in importance of the State highway departments has been rapid. The first of these agencies was credited in 1891 in New Jersey and now some form of highway department exists in every State except Indiana, South Carolina, and Texas. Since their inception these departments had expended to January 1, 1916, an aggregate of \$265,350,825 in State funds for road and bridge construction, maintenance, and administration. They had constructed over 50,000 miles of roads in co-operation with the States. More than 40,000 miles of these roads were surfaced.

The falling off in the value of road work performed by statute and convict labor was from \$20,000,000 in 1904 when the total road expenditures were \$80,000,000 to about \$15,000,000 in 1915 when the total expenditures had grown to \$282,000,000. This was a reduction from 25 per cent of the total in the former year to less than 5 per cent of the total in 1915.

An increase in the use of better and more expensive types of roads also is shown by the recently compiled statistics. This development has been due, in large part, to the great increase in automobile traffic. It is estimated that there are now approximately 24 million automobiles in use on the roads of the country, or 1 car for every mile of road. This present motor traffic is in excess of traffic of all sorts 12 years ago.

The cash road and bridge expenditures of the United States averaged only \$28 per mile of rural roads in 1904. In 1915 this average had grown to \$109 per mile. New Jersey led all other States both in 1904 and in 1915 with \$221 and \$475 per mile respectively. Nevada made the least expenditure in both years—\$3.72 per mile in 1904 and \$17 per mile in 1915.

MANY CHANGES ARE PLANNED

Episcopallians at General Conference Expect to Change Marriage Ceremony and Lord's Prayer.

"KEEP" IN PLACE OF "OBEY"

Recommendations Will be Based on Theory That Modern Ways Have Robbed Argument

(By United Press.)

St. Louis, Mo., Oct. 10.—The Ten Commandments, the marriage Ceremony and the Lord's Prayer as they have stood through the ages are to be changed by the General Convention of the Protestant Episcopal church which convenes here tomorrow if the reports of committees and sub-committees are endorsed.

In the marriage ceremony the committee will recommend that the word "Obey" in the bride's promise be replaced by "Keep," that the giving away of the bride be omitted entirely and the groom's promise to "endow" the bride "with his worldly goods," be eliminated.

A committee will recommend that the commandments be shortened by the omission of the reason for their observance. The recommendation will be based on the fact that the reasons were peculiar to the life of the Israelites and that changed modern ways have robbed the arguments of much of their weight.

The committee on revising the Lord's prayer will recommend the elimination of the words, "For Thine is the Kingdom and the Power and the Glory Forever." In requesting the omission the committee will say the words constitute a part of the Doxology added by early translators and that they are not in the original text of Holy Scriptures. The omission would make the prayer identical with the Roman Catholic version. The same committee will probably ask the elimination from the Book of Common Prayers the prayers for "Jews, infidels and Turks." The proposal is based on the ground that it is unwarranted to class the Jews with the others.

A canon prohibiting marriage when either party to the contract has a wife or husband living and has been divorced for any cause arising after marriage will be presented for action. Many notable churchmen gathered here today for the opening.

HEAP FIREWATER

(By United Press.)

Pierre, S. D., Oct. 10.—The elimination of the enlivening Mexican Peyota bean from the diet of the South Dakota Reservation Indians is the mission of Earl B. Putt, a chemist, who left for Washington today to obtain anti-bean legislation. The bean is supposedly a substitute for booze, which, as booze is barred from the Indians.

A brew from the bean causes the Indians to grow utterly indifferent to bulldozers and to see pink elephants with wings. Putt doesn't know, whether to tackle the job under the Harrison drug law or the Indian anti-firewater regulations.

This is the Stove Polish YOU Should Use

It's different from others because more care is taken in the making and the materials used are of higher grade.

Black Silk Stove Polish

Makes a brilliant, silky polish that does not rub off or get out of the surface as long as ordinary stove polish. Used on simple stoves and sold by hardware and grocery stores. If you have a fine stove, use Black Silk Stove Polish. It will make your stove shine like a mirror. It is sold in 10¢ and 25¢ tins. Made in U. S. A.

A Shine in Every Dron

Greatest enemies of your TEETH

—are Pyorrhea and decay.

Both usually develop only in the mouth where germ-laden tartar is present.

"But I brush my teeth," you say. Yes, you brush them, but do you REALLY CLEAN them?

Tonight, after brushing your teeth, go to the mirror and examine them. In all probability you will find an accumulation of tartar on the enamel and bits of food deposit hiding in the crevices.

Senreco, the formula of a dental specialist, REALLY CLEANS. It embodies specially prepared, soluble granules unusually effective in cleaning away food deposits. Moreover, it is particularly destructive to the germ of Pyorrhea.

Go to your dealer today and get a tube of Senreco—keep your teeth REALLY CLEAN and protect yourself against Pyorrhea and decay.

Send 4c to Senreco, 394 Walnut Street, Cincinnati, Ohio, for trial package.
